

15th Hole – 338m Mens & 289m Ladies – Par 4

This is another hole that requires placement rather than sheer length off the tee. For most, the preferred location to land is 190m from the tee in the middle to right hand side of the fairway. This will leave a 150m approach to a raised green, guarded by a large box tree on the left hand side.

Those that fancy their driving capabilities can test their skills by going over the corner.
